

INFORMATION THAT MAY HELP GET AN UNDERGRADUATE RESEARCH POSITION

Faculty member:

Last Name **HOLLINGSWORTH**

First Name: **MARGARET**

1. What do you look for in a potential undergraduate researcher?
Enthusiasm, motivation, completion of BIO 205
2. What are the best times of the year for students to look for a spot in your lab?
At least 3 months before they want to start.
3. What do you expect from an undergraduate researcher?
A minimum of 12 hours a week. Self motivation.
4. What can the student expect to be doing in your lab?
Molecular biology; study of gene expression.
5. What is the best way to approach you about getting research in your lab?
Make an appointment to speak to me
6. What kind of repayment can the student expect?
Intensive training in biotech techniques. Course (independent study) credit.
7. If course credit is given, what does it take to get an A?
hard work
8. Do you have room in your lab now, or foreshadow when you will?
Openings are periodic, so a student should call/drop by to see if any are available
